

The Twelvth Annual
Young Cryonicists Gathering
Teens & Twenties 12 2021:

Getting to Know You -
You Getting to Know Each Other -
All While Being Updated on the
Latest Scientific Research

Saturday; November 20, 2021

T2 has SWITCHED from a weekend on site to a
one day Zoom gathering -

- and I look forward to a return to a weekend on site -
meaning an end to the pandemic.

Host: Biomedical Research & Longevity
Society: Director - Bill Faloon

* All T2 Alum *

are also invited to attend this one
day zoom gathering. We very much
look forward to having new T2's
meet our alum. And senior
members will enjoy hearing about
your current endeavors.

The Twelvth Annual Young Cryonicists Gathering

Teens & Twenties 12 2021: Getting to Know You - You Getting to Know Each Other - All While Being Updated on the Latest Scientific Research
Saturday; November 20, 2021

T2 has SWITCHED from a weekend on site to a one day Zoom gathering.

Host: Biomedical Research & Longevity Society: Director - Bill Faloon

★★

Greetings to *All Young Cryonicists*,

You are receiving this invitation because you are the future of cryonics. This focus group followed a gathering of our Asset Preservation Group. Bill Faloon had related his appreciation to those who had helped him to attend a meeting of life extension/cryonics pioneers when he was a young man. He noted the resulting payback benefits that both the cryonics and the life extension movements have received from his subsequent involvement, leadership and financial contributions. Now he would like to do the same for other young cryonicists. Cairn Idun proposed her long held idea for a “Teens and Twenties” gathering. Bill agreed to host the gathering through the Biomedical Research and Longevity Society - BRLS. A few more of our members would also like to meet those cryonicists who possessed enough foresight to sign up at an early age. And we would like you to start *meeting each other and forming supportive bonds*.

All attention will be focused on our getting to know you and you getting to know each other - all while being updated on the latest scientific research relevant to cryonicists. Fully signed up young cryonicists from all cryonics organizations - ages 13-30 as of November 20, 2021 - may apply to attend. All who meet our designated requirements (i.e. timely application, age and funded cryonics contract) will be accepted and notified no later than **November 12, 2021** (generally within 1 week of receipt of your application). You **MUST** be registered **IN ADVANCE** to attend. There will be NO “drop in” participants.

Some individuals are social butterflies. This is not so for everyone. And we want everyone to meet everyone during this educational weekend.

Therefore, I have designed a diverse range of “getting to know you” activities. IF you would enjoy participating in these various getting acquainted activities, all while being updated on the latest scientific research, THEN this is for you.

I look forward to “getting to know you.”

Cairn Idun Founder/Director: Teens & Twenties

*A Letter From: Bill Faloon: Director - the
Biomedical Research and Longevity Society*

**A Special Invitation
to Meet the Cryonics Leaders of Today and Our Future
All While Being Updated
On the Latest BRLS Funded Scientific Research**

Greetings to *All Young Cryonicists*,

I am looking forward to meeting (and reuniting with) as many of you as possible - in person. I respect the foresight you have shown by signing up early. I would like to review the goals of this gathering and then give you an overview.

Goals:

- ★ Educate young cryonicists about developing emergency response technologies and revival strategies.
- ★ Develop a continuing social network of like-minded individuals who otherwise might not have the opportunity to meet in person.

Overview:

This education seminar/gathering is sponsored by the Biomedical Research and Longevity Society (BRLS), a non-profit organization. The genesis of BRLS began at a cryonics meeting in 1976. *Saul Kent* and I met with wealthy individuals seeking to establish an organization that would support scientific research and education aimed at eradicating biological aging and death.

This meeting resulted in the formation of the Biomedical Research and Longevity Society (formerly the Life Extension Foundation). *Yearly BRLS contributions* to anti-death research projects now **exceed \$10 million**.

Back when *Saul* and I met, our community of individuals signed up to be cryo-preserved totaled only a fraction (less than 10%) of what it is today. Regular monthly meetings enjoyed an almost 100% attendance. Cryonicists developed strong social bonds in those days and relied upon each other's volunteer services for emergency responses and even perfusions

and encapsulations.

We have witnessed the advent of the Internet and a move to paid professionals to provide what used to be volunteer cryo-preservation services. Unfortunately, we have also witnessed the fragmentation of our community of more than 2,000 signed up cryonics members (in terms of personal interaction).

As increasing numbers of younger individuals sign up to be cryo-preserved, it has become apparent that a gap exists between today's aging cryonics leaders and those destined to be the future leaders of cryonics related organizations.

The twofold focus of this special Young Cryonicists Gathering will be one, for you to get to know each other and to provide you with the opportunity to meet a few of those responsible for today's ongoing advances occurring in cryonics AND for us to get to know each one of you - all while two, being updated on our latest scientific research developments.

Cairn Idun, founder and director of "Teens and Twenties" events, understands that each of you has your own preference for social introductions. She has organized a variety of "getting acquainted" activities with the objective of having no unmet introductions and bonding opportunities.

This gathering creates an environment for today's scientific and financial caretakers to get to know and educate the future leaders of cryonics AND for you to get to know each other AND, as a consequence, draw strength from each other. We are each others resources.

Enjoy this exciting and fulfilling full day - Saturday - Zoom gathering.

With respect for your foresight,

Bill Faloon:

Director - The Biomedical Research & Longevity Society

Saturday; November 20, 2021

- switched to a one day ZOOM gathering

Host: Biomedical Research & Longevity Society - Director: Bill Faloon

Registration Form for NEW Applicants

Last year's attendees will receive a separate application. This is *NOT a drop in event*. You *MUST be registered in advance & fully signed up (i.e., a paid contract with a recognized cryonics provider)* for cryo-preservation.

Application deadline: November 10, 2021. Ages 13 through 30.

Name _____

Age as of November 20, 2021 _____ Birth date _____

Cryonics Provider _____

Mailing Address _____

e-mail _____ Phone _____

My thoughts on Teens & Twenties: _____

I wish to register for this special ZOOM gathering and understand that the on site gathering has been switched to ZOOM as a proactive health precaution. Registrants will be notified by Doug Baldwin on how to sign in.

I am also sending my new (altered) "Attendee Agreement" as it pertains to this special ZOOM gathering.

Your application will be verified upon receipt of this agreement.

Mail, fax or e-mail to:

Teens & Twenties; c/o *Kathy Markell*; Life Extension Foundation
3600 West Commercial Blvd.; Fort Lauderdale FL 33309

Phone: 954-202-7702 FAX: 954-202-7745 e-mail: kmarkell@lifeextension.com

Plus: Doug Baldwin <dbaldwin@interserv.com>

I look forward to "getting to know you." *Cairn Idun* Founder/Director

T2 12 2021 New & Returning Hand Written Attendee Agreement

Attendance to Teens & Twenties is *dependant* upon a handwritten, signed, dated and timely receipt of the following agreement. This is meant to accompany your application. Use black ink only to copy the following ENTIRE statement in your own handwriting and insert your name where designated. Then sign and date. This unfortunate requirement is due to just “one bad apple” who took advantage of the free hotel room BUT did not attend any of the events. She did, however, show up for free meals. The goal is to discourage abuse. If you think this form of theft is “no big deal,” it is best that you also not apply. This gathering is specifically for those who WANT to get to know ALL attendees & who WANT to participate. This is for those who choose to peacefully ATTEND T2. The name of this one individual will not be revealed. The vast majority of young cryonicists are incredibly mature - more so than the population at large. Yet any group can have that one bad element.

STATEMENT: Only black ink will be accepted. This is necessary for scanning & copying.

I, _____, understand that my acceptance to attend this special ZOOM gathering for Teens & Twenties is provisional. I commit to peacefully attend T2 12 2021 Zoom & will not cause or participate in any disruptions (anything that prevents scheduled and approved activities from proceeding). IF I cause or participate in a disruption, future acceptance and scholarships will be denied and I will be ejected from the zoom gathering.

(signature)

(date)

It is insufficient to simply sign and date this statement/agreement. Remember to LEGIBLY copy the entire statement/agreement in your own handwriting. Computer generated handwriting will not be accepted.

Only those applicants who provide this statement will be allowed to attend. Writing this out helps to prevent anyone from claiming they signed without reading it.

Please send your handwritten agreement to BOTH:

Teens & Twenties; c/o Kathy Markell; Biomedical Research and Longevity Society;

3600 West Commercial Blvd.; Fort Lauderdale FL 33309

FAX: 954-202-7745 e-mail: kmarkell@lifeextension.com

Plus: Doug Baldwin <dbaldwin@interserv.com>

Thank-you for your cooperation. I know this is unfortunate. One bad apple.....

Reality

I, You, We.

All Three

Equal

Community.

Reality.

Sometimes we're the same.

Sometimes we're not.

Sometimes we're together.

Sometimes we're alone.

Reality.

Diversity.

Sometimes

Some of you

Agree with me,

Sometimes not.

How to respect

Diversity ?

Peaceful tolerance.

It is not necessary for *you* to like another's peaceful behavior.

Nor is it necessary for other's to like *your* peaceful behavior.
